

Open Streets TO

FACT
SHEET

WHAT IS OPEN STREETS TO?

The Basics

The city's largest free recreation program, unlike any other in Toronto or Canada

A program that opens the streets to people and closes them to cars

A world-class program that connects our diverse neighbourhoods and people across the city

People traffic replaces car traffic, and the streets become 'paved parks' where people of all ages, abilities, and social, economic, and ethnic background can come out, engage and improve their health.

2022 Program

5k in the Heart of T.O.

Moving
Together.

Celebrating
Together.

What Makes it Different from Other Festivals?

Open Streets TO is focused on promoting physical activity and exploring our city in fun and healthy ways.

Activity Hubs are programmed along the route by members of the surrounding community.

There is no outside vending. Open Streets TO participants can make purchases at established businesses along the route.

Open Streets TO will "soft close" streets. Participants will stop at major signalized intersections, allowing perpendicular traffic to cross normally.

Let's create a **happier**, **healthier** Toronto

**Toronto
Metropolitan
University**

Toronto Metropolitan University's research confirmed assertions made in advance of launching Open Streets TO, including that grassroots marketing would work; that the events would generate positive feelings about TO; and that people would stay longer than a cup of coffee.
